

Full Stack Developer and Computer Engineering graduate (2025) with expertise in MERN stack and backend development. Skilled in building scalable web applications, developing RESTful APIs, and working with modern web technologies. Experienced in both frontend and backend development, with a strong focus on performance, efficient code, and scalable architecture.

SKILLS

- **Programming Languages:** JavaScript (ES6+), Java, SQL
- **Frontend Technologies:** React.js, Next.js, HTML5, CSS3, Tailwind CSS
- **Backend Technologies:** Node.js, Express.js, Spring Boot, PHP
- **Databases:** MongoDB, MySQL, PostgreSQL
- **Tools:** Git, GitHub, Postman, VS Code, XAMPP, Eclipse, Vercel, Hostinger
- **Core Concepts:** RESTful APIs, API Integration, JWT Authentication, MVC Architecture, CRUD Operations, State Management, Responsive Design
- **Soft Skills:** Problem Solving, Adaptability, Team Collaboration

TECHNICAL EXPERIENCE

Jainam Jivika Foundation – Jr. Web Developer

Apr 2026 — Present

Pune, Maharashtra

- Developed and maintained scalable MERN stack applications supporting 8+ organizational initiatives.
- Designed and implemented RESTful APIs for campaign lifecycle management and request handling.
- Built a dual-panel system (User Panel & Admin Panel) including campaign creation, approval workflows, user management, and analytics tracking.
- Implemented role-based access control and centralized administrative functionalities.
- Developing a scalable Content Management System (CMS) to manage multi-initiative content from a single platform.
- Built CMS modules for blog creation, content updates, and dynamic data management.

Code Colonies – MERN Stack Developer

May 2025 — March 2026

Ahmedabad, Gujarat

- Developed a full stack e-commerce platform using Next.js, Node.js, and Express.js.
- Built RESTful APIs for product management, user workflows, and order processing.
- Implemented features including product listing, search functionality, cart management, and secure checkout.
- Designed and developed a B2B Admin Panel with CRUD operations, real-time inventory updates, and role-based access control.
- Managed complete order lifecycle including scheduling, shipping workflows, delivery tracking, and order status management.
- Enabled cross-platform mobile deployment using **Capacitor** for Android and iOS platforms.

BUILDINT PVT LTD – MERN Stack Intern

Feb 2025 — May 2025

Mumbai, Maharashtra

- Developed frontend and backend modules using React.js, Node.js, Express.js, and MongoDB.
- Built real-time dashboards to visualize sensor data using API integration.
- Designed backend APIs for efficient data handling and improved system performance.
- Developed embedded web interfaces for ESP microcontrollers for device configuration and monitoring (IoT integration).

Freelance Full Stack Developer

Clients: *Marconi Renew Energy, Swami Green Energy*

- Developed responsive full stack web applications improving user experience and application performance.
- Built backend admin panels for content management and workflow automation.
- Delivered scalable and customized solutions aligned with client requirements and business objectives.

R3 Systems India Pvt Ltd – Java Developer Intern

Feb 2024 — Mar 2024

Nashik, Maharashtra

- Developed backend modules using Java, Spring MVC, JSP, Servlets, and MySQL.
- Implemented service workflows including user registration, approval systems, and request handling.
- Contributed to scalable application design and backend system architecture.

PROJECTS

Professional Service Provider – Web Application

- Developed a full stack web application enabling users to search, request, and book home services (plumbing, electrical, etc.).
- Designed and implemented RESTful APIs for service requests, booking workflows, and user management.
- Built responsive UI components and improved user experience through optimized navigation and layout.
- Tech Stack: React, Java, Spring Boot, MySQL, Bootstrap

SkillFit – Recruitment & Assessment Platform

- Developed a full stack recruitment system with separate modules for students and recruiters.
- Implemented job postings, skill-based assessments, automated evaluation, and candidate shortlisting.
- Improved hiring workflow efficiency through structured test results and streamlined processes.
- Tech Stack: React, Spring Boot, Hibernate, MySQL

Tech Care – Healthcare Web Application

- Built a healthcare platform for doctor consultations, appointment scheduling, and lab test bookings.
- Developed backend APIs and integrated automated email notifications for patient updates.
- Focused on performance, data handling, and user-friendly interface design.
- Tech Stack: React, PHP, MySQL, PHPMailer

EDUCATION

Bachelor of Technology (B.Tech) in Computer Engineering

2022 – 2025

R. C. Patel Institute of Technology, Shirpur, Maharashtra

CGPA: 8.30

Diploma in Computer Engineering (MSBTE)

2019 – 2022

Government Polytechnic, Jalgaon, Maharashtra

Percentage: 85.43%

Secondary School Certificate (SSC)

2019

S. S. P. D. Thepade Secondary School, Mhasawad, Maharashtra

Percentage: 88.20%

CERTIFICATIONS

- Completed certifications in C Programming, Python, Java, PHP, and Android Development from Info Planet.
- Certified in Spring Framework during internship at R3 Systems India Pvt Ltd.
- Participated in Smart India Hackathon representing R. C. Patel Institute of Technology.
- Completed hands-on training in Node.js, Express.js, MongoDB, JavaScript, and EJS.
